Precision Alignment Systems

Precision Alignment Systems:

- * Substrate To Mask, Mask to Mask, Substrate To Substrate
- * Interchangeable Vacuum Mask Holders Up to 17"
- * Interchangeable Vacuum Chucks For Substrates Up To 16" Square, .3" Thick. Fixed Level And Planarizing Configurations, Fixed Or Removable Substrate Pre-Alignment
- * Chuck Motions: Micrometer Driven X, Y, & Theta, Precision Z Adjust (for fine gap settings), Differential Micrometer Option With (coarse/fine motion)
- * Pneumatic Controls: On/Off, Substrate, Mask, Adjustable Contact, & Ball Lock Vacuum (for planarizing chucks), Adjustable N2 Purge, Mask Frame (up/down).
