

The Most Complete Package for Manual MicroBlasting.

Available only from Comco.

The AccuFlo® AF10 with exclusive Simoom® Technology

Comco's Simoom Technology, our patented method of mixing air and abrasive, provides greater control, increased power and versatility. Its steady flow of abrasive ensures consistent results. With the AccuFlo AF10 you can process parts faster with greater powder efficiency. Select from a wide range of abrasive types and sizes to obtain just the right finish.

The New **ProCenter Plus™**

**HEPA filter
equipped**

The ProCenter Plus is the cleanest, quietest and most comfortable blasting center available. It combines a spacious, well-lit work chamber, air dryer and dust collector in one freestanding unit. Ergonomically designed for operator comfort, the ProCenter Plus is compact, mobile and convenient for any workplace.

Looking for a turn-key solution for your micro-abrasive blasting application?

Our AccuFlo® blast package provides the latest microblasting technology: the AccuFlo® equipped with Simoom™ Technology and the ProCenter Plus™.
